

## Chapter 4 – VOC Contents

The VOC contents presented here are what are typically referred to as the “VOC content, less water and less exempt solvents”. We called this “VOC<sub>regulatory</sub>” in the 1998 survey. These figures simply present the sales-weighted average VOC<sub>regulatory</sub> contents, in grams per liter, by category.

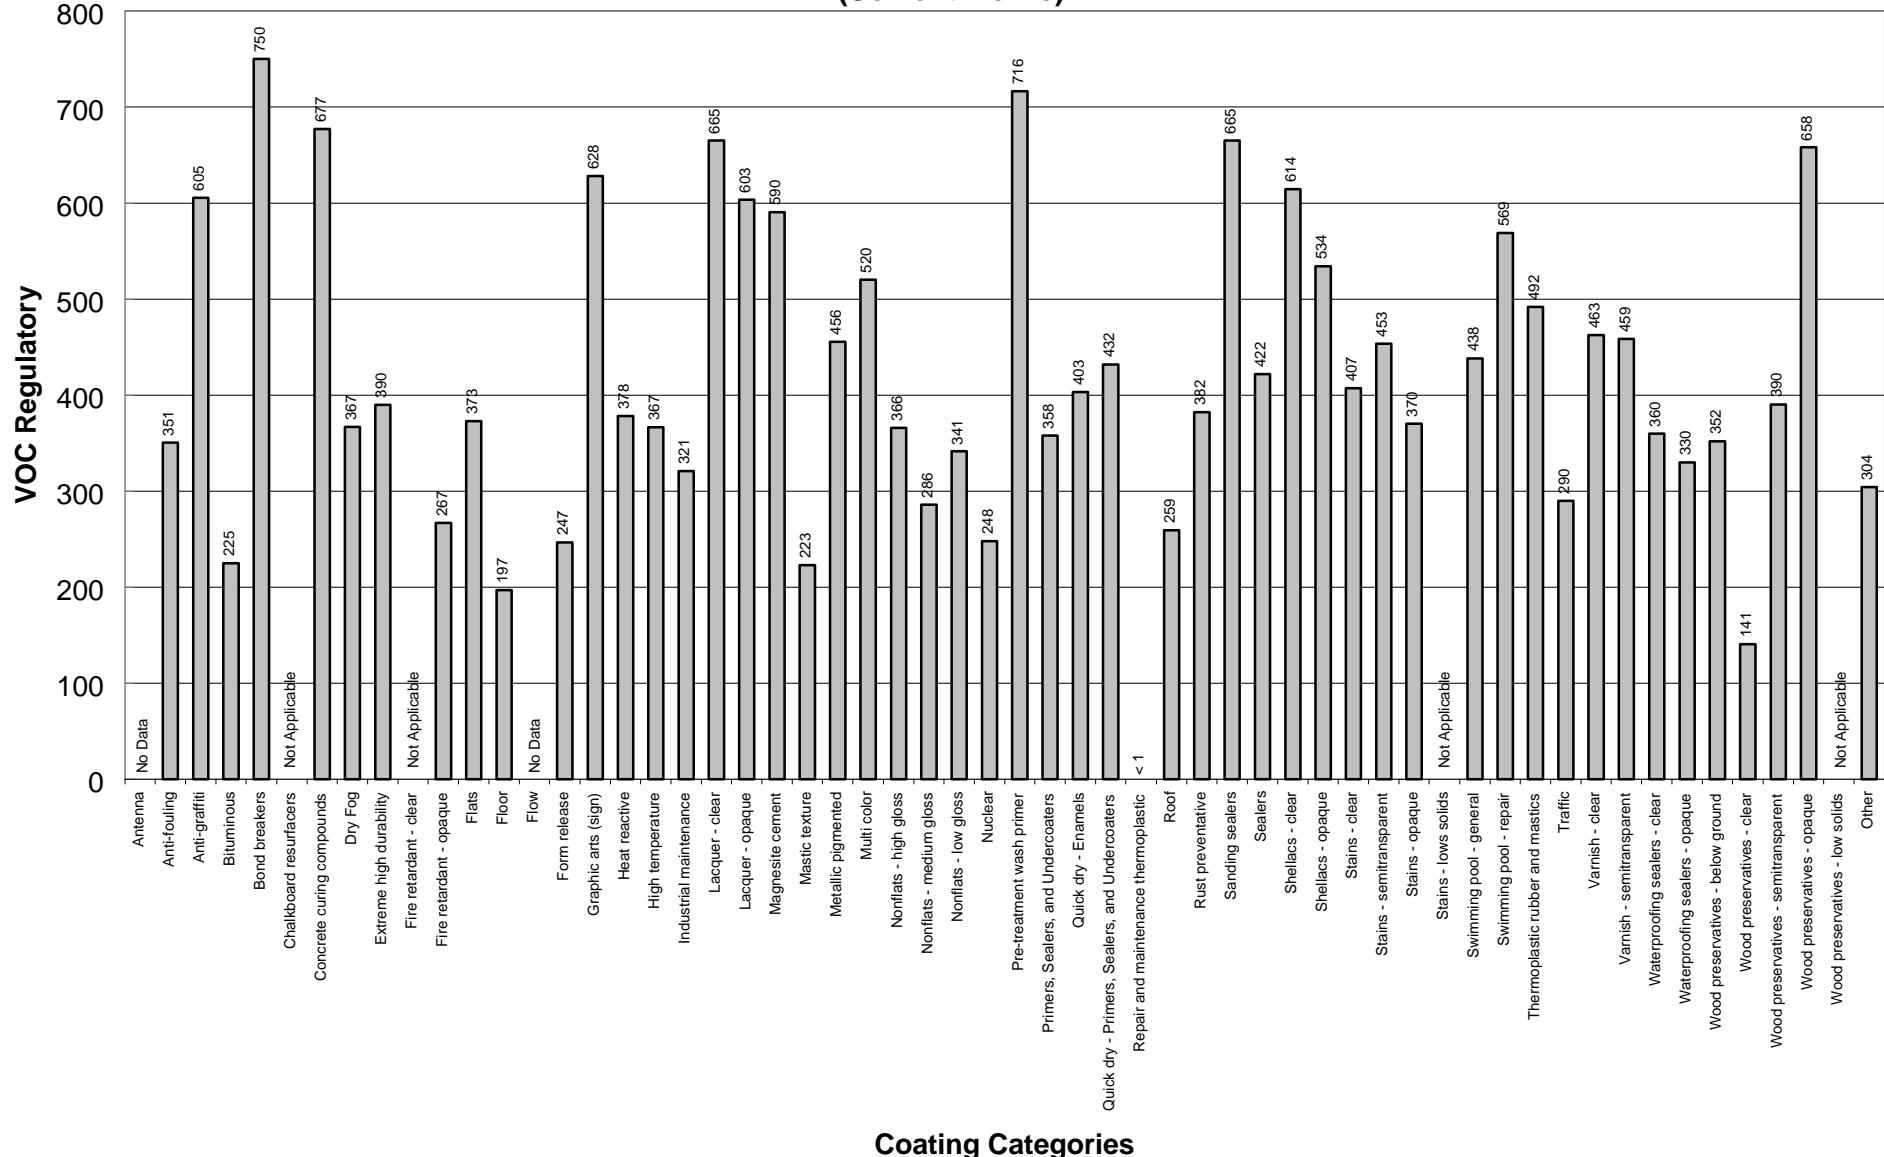

This section includes the following figures:

- Figure 4-1 shows the overall sales-weighted average VOC<sub>regulatory</sub> content by category.
- Figure 4-2 shows the solvent-borne sales-weighted average VOC<sub>regulatory</sub> content by category.
- Figure 4-3 shows the water-borne sales-weighted average VOC<sub>regulatory</sub> content by category.

**Figure 4-1**  
**Overall Sales Weighted Average of VOC Regulatory  
by Category**

**Figure 4-2**  
**Sales Weighted Average of VOC Regulatory**  
**by Category**  
**(Solvent-Borne)**

**Figure 4-3**  
**Sales Weighted Average of VOC Regulatory**  
**by Category**  
**(Water-Borne)**
